

Nanometrics to Participate in the 7th Annual NYC Investor Summit

November 19, 2018

MILPITAS, Calif., Nov. 19, 2018 (GLOBE NEWSWIRE) -- Nanometrics Incorporated (Nasdaq: NANO), a leading provider of advanced process control systems, today announced that company management is scheduled to participate in the 7th Annual NYC Summit, being held December 11, 2018 at the Parker New York Hotel, New York City.

The presentation material utilized during the NYC Summit will be made accessible on the investor page of the company's website at www.nanometrics.com.

About The 7th Annual NYC Summit

The NYC Summit is hosted by executive management from participating companies and will feature a "round-robin" format consisting of small group meetings, each 30 minutes in duration. During the event, investors and analysts will have the opportunity to meet with up to 10 of the 17 management teams during the 30-minute group meeting sessions, as well as opportunities to meet with additional management teams during the breakfast and lunch networking sessions.

The 17 management teams collectively hosting the 2018 NYC Summit include: ACM Research (ACMR), Advanced Energy Industries (AEIS), Aehr Test (AEHR), Alpha & Omega Semiconductor (AOSL), Axcelis (ACLS), BE Semiconductor Industries (BESI.AS), Brooks (BRKS), Cohu (COHU), FormFactor (FORM), Ichor Systems (ICHR), Intermolecular (IMI), inTEST Corporation (INTT), Intevac (IVAC), Kulicke & Soffa (KLIC), Nanometrics (NANO), Rudolph Technologies (RTEC), and Veeco Instruments (VECO).

The NYC Summit is by invitation only and is open to accredited investors and publishing research analysts. As space is limited, please RSVP early. Hosts reserve the right to limit attendance as necessary. Last day for registration is December 3, 2018.

About Nanometrics

Nanometrics is a leading provider of advanced, high-performance process control metrology and inspection solutions used primarily in the semiconductor manufacturing industry, as well as in the fabrication of other solid-state devices and components in the optoelectronic, LED and storage industries, and more recently in the industrial, aerospace and scientific research markets. Nanometrics' process control solutions include automated and integrated metrology systems as well as software and analytics that measure and monitor key elements of device performance and yield, such as critical dimensions, device structures, surface shape and profile, overall topography and various thin film properties, including three-dimensional features and film thickness, as well as the optical, electrical and material properties of various substrates, devices and components. Nanometrics' solutions enable advanced process control for device manufacturers, providing improved device yield at reduced manufacturing cycle time, supporting the accelerated product life cycles in the semiconductor and other advanced markets. The company maintains its headquarters in Milpitas, California, with sales and service offices worldwide. Nanometrics is traded on Nasdaq Global Select Market under the symbol NANO. Nanometrics' website is <http://www.nanometrics.com>.
